## **Classic Marine Discount Scheme**

Customers placing large orders, or who place regular orders with us, often (naturally) ask for discount. In order to make our response consistent and fair, we have implemented a Discount scheme with the following features:

1. The scheme applies to end-user customers only.
2. It is based on the value of goods supplied over the previous calendar year.
3. It applies to the ex VAT value of the goods supplied at the time of invoicing
4. It is structured on the basis of a rolling 12 month total as follows:
  - The first £200 spent attracts no discount
  - The next £300 - ie from £200 to £500 - will be discounted at 6%
  - The next £500 - ie from £500 to £1000 - will be discounted at 9%
  - Expenditure beyond £1000 will be discounted at 12%
5. Discounts are applied automatically - customers don't have to apply for them, or remember a number or anything.
6. They are applied as cash savings at the time of invoicing.
7. Quotes will indicate the likely level of discount, but this is an indication only.
